NEX EXCHANGE · 2026

# The AI-Native Exchange

## A global AI-native digital asset and economic ecosystem platform

Built on blockchain, connecting Asia-Pacific digital finance with global capital markets to form one cross-border financial ecosystem.

01 · KEY FIGURES

# NEX at a Glance

NEX is a high-throughput digital asset exchange handling ecosystem asset clearing, deep-liquidity matching and user interaction. One protocol, the NEX AI Economy Protocol, brings the exchange, real-world assets and AI compute under the same economic rules.

**Matching throughput**

**1M** orders / s

Published platform metric

**Matching latency**

**10** µs

Published platform metric

**Supported assets**

**30+**

Spot and perpetual futures

**Service hours**

**24 / 7**

Dedicated account managers, 30-second response

**Live product lines**

**3**

Spot · Perpetuals · Guess prediction market

**Strategic hubs**

**3**

Australia · Macau · Malaysia (planned)

Source: n-exchange.io public information (Sep 2026); strategic hubs are planned footprint

02 · TRACTION

# Traction: One Million Accounts, 200K Monthly Active Users

One million registered accounts, 200,000+ monthly actives and close to 100 million USDT in daily volume.

Registered accounts
**1,000,000 +**
Cumulative

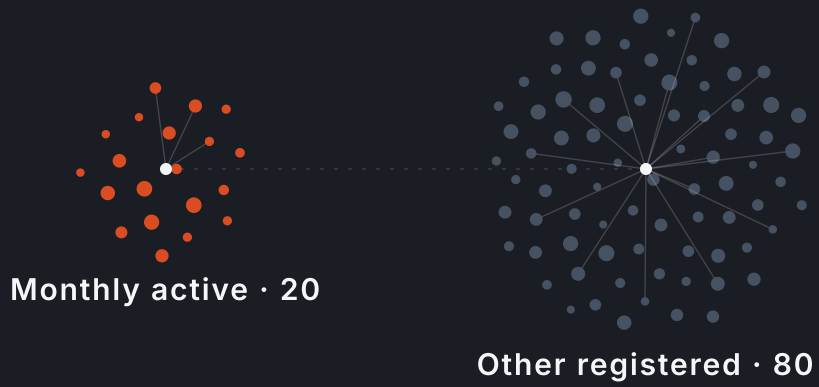

Monthly active users
**200,000 +**
MAU · trailing month

Average daily volume
**90,492,521 USDT**
Spot and perpetuals

20% — of registered accounts are monthly active (derived)

## 20 of every 100 registered accounts were active this month

one dot = 1% = 10,000 accounts · orange = monthly active · grey = other registered

ONE DOT = 1% = 10,000 ACCOUNTS · 20 + 80 = 100

HUNDRED FIELD · PROJECT DATA · SEP 2026

Project-provided data (Sep 2026); MAU share derived

03 · INDUSTRY PAIN POINTS

# The Bind of Traditional Centralized Exchanges

TRADITIONAL CEX

## A passive “traffic broker”

**Hollow asset base**
Listings depend on outside projects with no real-asset anchor; value support is thin and tokens become speculation vehicles.

**High traffic cost**
User acquisition relies on paid ads and channel buying; retention is low and marketing cost keeps squeezing margins.

**Single revenue stream**
Trading fees alone, weak resilience, highly exposed to market cycles.

**Fragmented ecosystem**
Online trading is cut off from offline industry, so value cannot flow back or compound.

NEX DIGITAL ECONOMY · DESIGN INTENT

## An endogenous “value flywheel”

**Asset-backed**
Assets are incubated inside the ecosystem and backed by offline real assets, so value is anchored.

**AI-native traffic**
AI keeps generating user demand and scenarios, building a low-cost, high-retention traffic pool.

**Diversified revenue**
Trading fees, asset issuance, compute services and real-industry revenue form a cycle-resilient income mix.

**Closed-loop ecosystem**
Returns are reinvested into compute and industry, linking real industry, AI and capital beyond the CEX ceiling.

Right column shows the NEX ecosystem's design intent, not verified operating results

04 · WHY NOW

# Why Now: Tokenization at Scale

**$32.3B**

Combined value of the top 50 tokenized assets (rwa.xyz, 21 Sep 2026)

**44%**
Treasury funds' share of the top 50

**+92%**
BUIDL grew from $1.20B to $2.30B in a year

**MiCA**
EU crypto-asset regulation now in force

Source: rwa.xyz top-50 tokenized assets snapshot, 21 Sep 2026; BUIDL Aug 2025 figure from public reports; other three = private equity, equities, diversified credit; directional only

05 · WHAT IS NEX

# NEX: The First AI-Native Digital Asset Ecosystem

01

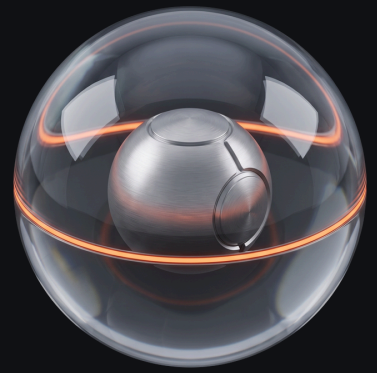

## Protocol foundation

A unified NEX AI Economy Protocol standardizes economic rules across the ecosystem, keeping value flows transparent and tamper-proof.

02

## Vertical integration

One chain from the AI layer through the real-value layer to the digital-asset layer, so technology, assets and capital connect.

03

## Endogenous value creation

A self-sustaining system: AI-driven matching and incubation keep producing high-value users, projects and real assets.

04

## Cross-domain convergence

Beyond geography, industry and asset class: AI compute, industry returns and capital circulate globally without friction.

**Ultimate goal** The base infrastructure of next-generation digital economies, bridging the physical and digital worlds.

06 · PRODUCT MAP

# Product Map: Live and Planned

Live

## Spot trading

TradingView charts from 1 minute to 1 week; order book, depth and live trades; limit and market orders.

Live

## Perpetual futures

Separate mark and index prices; funding rate with settlement countdown; 24h high/low, volume and turnover.

Live

## Guess prediction market

Predict event outcomes with points; personal page and public bet feed; shares the trading account.

Coming soon

## Mobile app

Trade anytime, anywhere: markets and trading on the go.

Planned

## NFT marketplace

Scarce digital art and creative collectibles to collect, gift and trade.

Planned

## Staking and earn

Flexible staking and wealth products that optimize allocation.

Planned

## Priority launchpad

Exclusive first listings of promising projects with whitelist draws.

Planned

## AI advisory

A diversified product matrix with intelligent advisory and quant strategies.

Source: n-exchange.io public information (Sep 2026); planned lines subject to official announcements

07 · SPOT & PERPETUAL

# Institutional-Grade Matching Engine

Transparent, traceable, institution-grade trading and matching.

**1M / s**
THROUGHPUT
Matching engine throughput

**10 µs**
LATENCY
Matching latency

**1m – 1w**
CHART
TradingView multi-timeframe charts

**24h**
STATS
High/low, volume and turnover

- **Separate mark and index prices** — funding rate and settlement countdown
- **Hot/cold wallet separation** — bank-grade security, multi-factor auth
- **24/7 service** — dedicated account managers, 30-second response
- **30+ assets** — across spot and perpetuals

Source: n-exchange.io public information (Sep 2026)

08 · CAPABILITIES

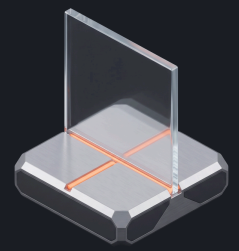

# End-to-End Enablement for Trading and Growth

## Secure, reliable trading

SECURITY

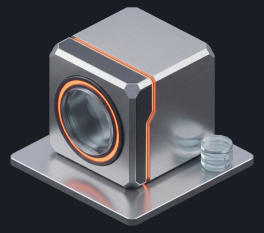

Bank-grade risk controls, multi-layer encryption and cold storage protect every trade.

## NFT marketplace

NFT MARKET

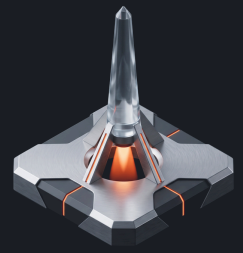

Scarce digital art and creative collectibles, free to collect, gift and trade.

## Staking and earn

EARN

Flexible staking and wealth products that optimize asset allocation.

## Priority launchpad

LAUNCHPAD

Rigorously selected projects with exclusive first-listing access and whitelist draws.

NFT marketplace, staking and launchpad are planned product lines

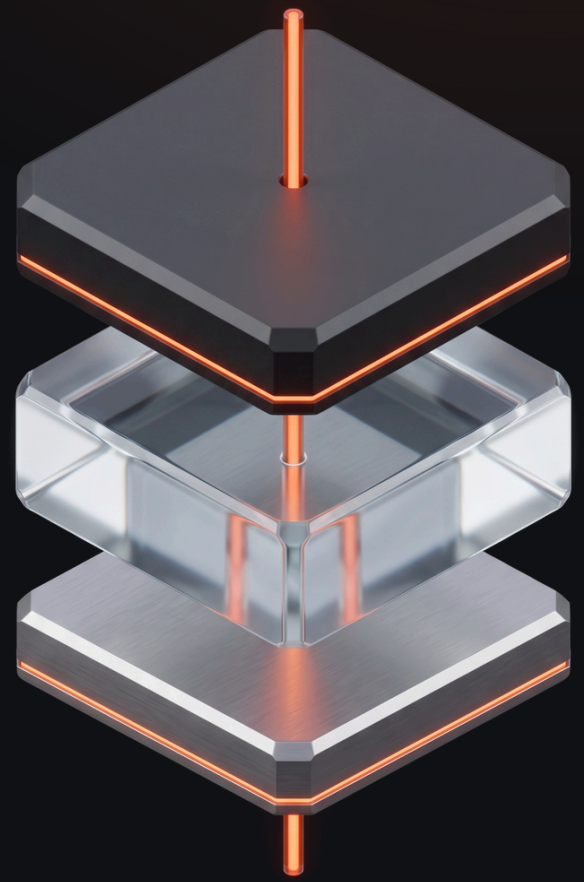

09 · ECOSYSTEM ARCHITECTURE

# Architecture: Protocol and Three Layers

The NEX AI Economy Protocol defines the ecosystem's base rules and trust mechanism, coordinating intelligent production, asset incubation and value circulation.

| | | |
|---|---|---|
| 01 | **Intelligence · WhaleVoice** | Traffic and content engine: AI avatars, creator economy, HNW communities, AI incubator |
| 02 | **Assets · VRX** | AI-driven restructuring of real assets: RWA packages, AI enterprise accelerator |
| 03 | **Circulation · NEX** | Global value circulation and trading: cross-chain liquidity, compliant trading and settlement |

**WhaleVoice**
traffic · incentives
→
**VRX**
incubation · investment
→
**NEX**
circulation · revenue

Forward chain: traffic → asset incubation → circulation; reverse loop: trading revenue → industry investment → ecosystem incentives

10 · ASSET RECONSTRUCTION

# Ten Classes of On-Chain Assets

A value-exchange network where everything connects.

01 **AI assets**
Tradable, verifiable AI models

02 **Digital rights**
Traceable on-chain rights credentials

03 **Membership rights**
Tokenized, portable member benefits

04 **Corporate rights**
Digitized subject to compliance

05 **GPU compute**
Real-time trading, elastic scheduling

06 **Cultural IP**
Creative, film and art IP on-chain

07 **NFT assets**
Unique digital content and ownership

08 **AI services**
Training and inference, pay as you go

09 **RWA**
Property, gold and other real assets

10 **Digital identity**
Self-sovereign on-chain identity (DID)

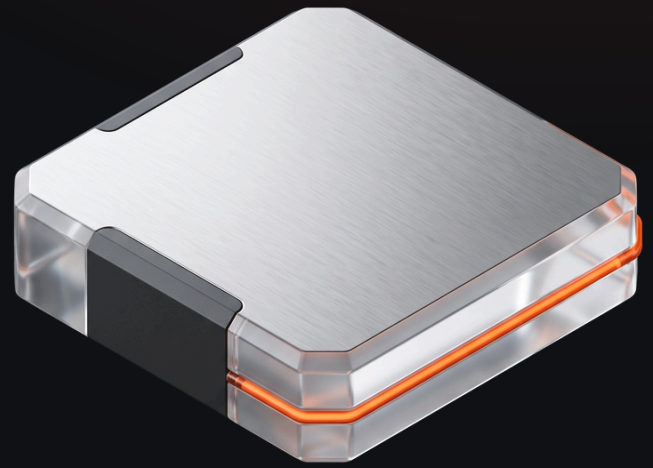

The ten classes are the target scope; on-chain progress per official announcements

11 · NFT 2.0

# NFT 2.0: From Collectibles to Digital Rights

An NFT is not a picture: it is a tamper-proof carrier of value and identity.

- **Membership** — Access and privileges
- **VIP privileges** — Premium, priority access
- **Hotel benefits** — Stays, upgrades, spa
- **Event tickets** — On-chain verified entry
- **Digital identity** — Trusted cross-platform ID
- **Commercial licensing** — Copyright and tracing
- **Cultural IP** — Heritage and trend IP
- **Corporate rights** — Asset and supply-chain
- **AI Avatar** — Personal digital twin

**1,000s** — New listings per day (planned)

**3D** — Personal digital gallery

**Whitelist** — Limited first-release draws

**Purchase mechanism** Pay with NX for a 5% discount; no discount with other ecosystem tokens.

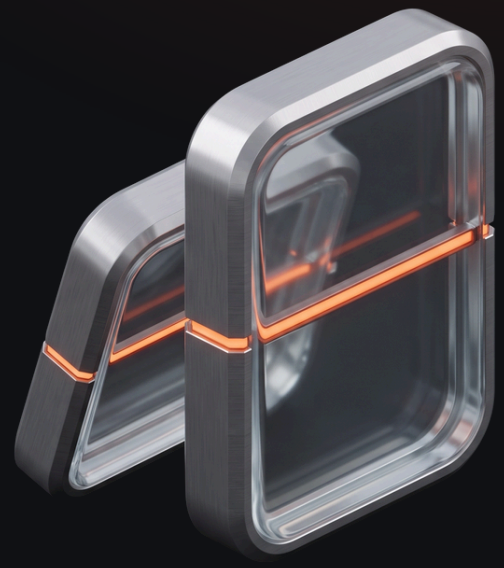

NEX NFT Marketplace is a planned product line; NX is the ecosystem token and its issuance terms follow the project's future written disclosure

12 · NFT 2.0 IN MACAU

# NFT 2.0 in Macau: Culture and Tourism

## Core layout: a diversified NFT ecosystem

- **Digital culture** — Original digital content from Macau's East-meets-West heritage
- **Digital tourism** — Online collectibles and offline travel services enabling each other
- **Cultural IP** — Rights confirmation and issuance of local IP
- **Digital collectibles** — Limited-edition collectible series
- **Digital membership** — NFT as identity credential with cross-scenario benefits
- **Decentralized identity** — Blockchain-based trusted identity, simpler cross-border verification
- **Compliant NFT market** — Regulated primary issuance and secondary trading

## Future links: a full-scenario rights value loop

**Hotels** stay upgrades → **Travel** tickets, shows → **Members** points swap → **Commerce** deals, drops

The Macau layout is a planned direction; a compliant NFT market must follow local regulation

13 · AI PASSPORT

# AI Passport: The Foundation of a Universal Digital Identity

In the future every user has one identity: the AI Passport.

- **Wallet** — aggregates multi-chain assets as one management and payment entry
- **NX token** — the core fuel of the ecosystem, powering value flows and incentives
- **AI Agent** — a personal autonomous partner for intelligent decisions and execution
- **AI Score** — behavior-based intelligent assessment for a trusted credit system

**One Identity, One Wallet, One Economy.** A globally unified AI-native digital economy where value moves freely.

AI Passport is a planned identity system

14 · ON / OFF RAMP

# A Global Bridge Between Fiat and Crypto

NEX plans a global digital payment network linking traditional finance with the digital economy.

ON RAMP · FIAT IN

VISA · MASTERCARD · UNIONPAY · WECHAT PAY · ALIPAY · APPLE PAY · GOOGLE PAY

- **Card top-up** — instant settlement
- **E-wallet aggregation** — one-tap funding
- **Stablecoin flows** — USDT / USDC multi-chain, low slippage

**100+**

countries and regions for bank withdrawals

**T+0**

cross-border B2B settlement

OFF RAMP · CASH OUT

USDT · USDC · MAJOR FIAT

- **Global fiat withdrawal** — local rates, fast settlement
- **Merchant payments** — spend directly online and offline
- **Cross-border B2B settlement** — large transfers at lower FX cost

**NEX PAY · Planned** Global off-ramp channels for digital assets with real-time multi-currency settlement and compliant acceptance.

On/off ramp and NEX PAY are planned networks; channels and currencies subject to launch announcements

15 · MERCHANT NETWORK

# Merchant Network: Digital Asset Payments

Digital asset payments will reach everyday services and premium consumption.

**Luxury hotels**
Cross-border stays at star hotels and boutique inns

**Cross-border travel**
Flights, packages and local experiences

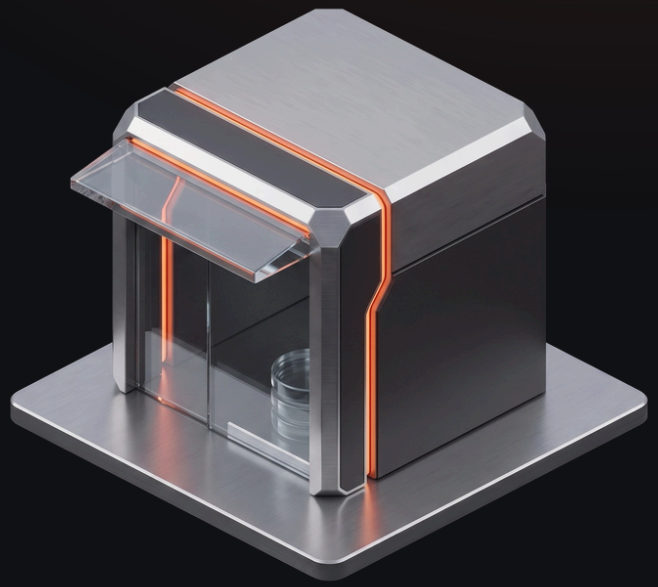

**Dining**
From Michelin tables to street food

**Retail**
Department stores and chains, scan to pay

**Brands**
Connected memberships and payment channels

**Luxury goods**
Jewelry, watches and bespoke services

**AI services**
Compute rental, model training, apps

**Digital Commerce** A connected digital commerce ecosystem where value moves as freely as information, across borders and currencies.

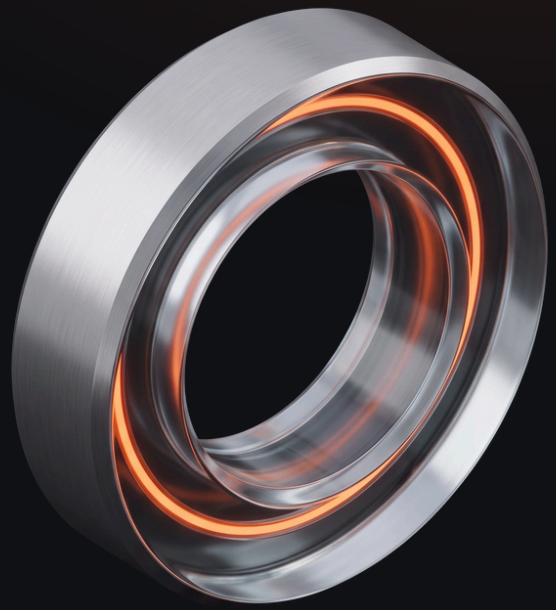

The merchant network is a planned direction; examples are not signed merchants

16 · VALUE FLYWHEEL

# Value Loop: A Self-Reinforcing Flywheel

An invest–produce–reinvest loop that keeps the ecosystem expanding and appreciating.

**Capital** into compute → **Compute** AI iteration → **Assetize** platform circulation → **Appreciate** back to capital

- Capital keeps flowing into compute infrastructure
- Compute powers rapid iteration of AI models and applications
- AI value is assetized and circulated through the digital finance platform
- Appreciation flows back into capital and compute

The flywheel is design intent, not verified operating results

17 · STRATEGIC HUBS

# Three Strategic Hubs for Asia's New Digital Economy

AUSTRALIA

### Australia · Capital hub

Connecting frontier AI innovation with mature international capital markets to fund high-growth projects at scale.

MACAU

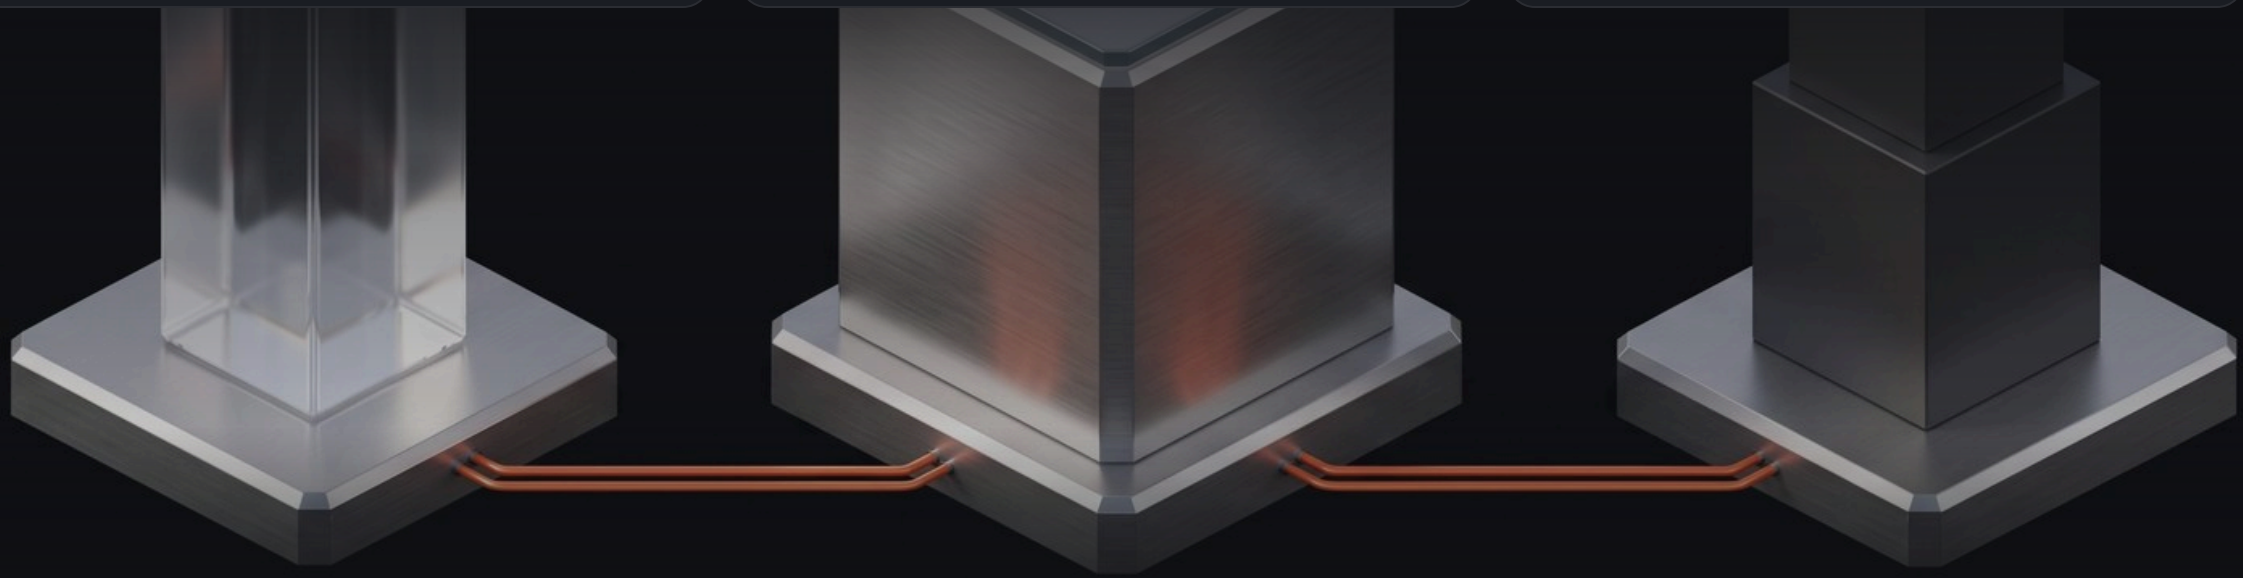

### Macau · Digital finance hub

A regulated, high-standard, globally connected platform for digital financial asset trading and settlement.

MALAYSIA

### Malaysia · AI compute hub

Aligned with the national AI strategy: scalable, low-cost compute for large-scale model training and data processing.

The three hubs are planned footprint: a golden triangle of capital, technology and circulation

18 · HUB ROLES

# Hub Roles: Capital · Finance · Compute

| Australia · Capital engine | Macau · Digital finance hub | Malaysia · AI compute center |
|---|---|---|
| **Listing platform** cross-border capital channels | **Digital asset exchange** apply for and operate a compliant venue | **National compute hub** coordinated, shared compute |
| **AI infrastructure investment** capital into compute centers | **RWA tokenization platform** property and commodities on-chain | **Compute marketplace** transparent online trading |
| **Institutional capital** sovereign and pension funds | **International trading node** Greater Bay Area and Lusophone markets | **GPU cluster build-out** owned GPU server clusters |
| **Global fundraising** global LPs, AI industry fund | **Cross-border fintech pilots** payments and asset transfer | **Elastic AI cloud** training, fine-tuning, inference |
| **Global expansion** helping ecosystem firms go abroad | **Operations and risk center** risk monitoring, compliance audit | **Enterprise AI solutions** consulting through to compute |
| **Strategic M&A** core technology and market share | **Institutional services** custody, market making, advisory; brand IP | **Compute derivatives** exploring futures and options |

All initiatives are planned; the Macau exchange is described as “apply for and operate”; license status per written documents

19 · GLOBAL FOOTPRINT

# From Three Hubs to the World

Anchored in Macau, Australia and Malaysia; reaching major economies.

## Four core engines

ASIA

### Asia

Emerging-market growth with vast crypto users.

MIDDLE EAST

### Middle East

Capital and energy hub embracing digitization.

EUROPE

### Europe

Compliance benchmark for institutional crypto.

N. AMERICA

### North America

Home of technology and capital.

## Expansion bases (planned)

DUBAI **Middle East compliance**

EU & US **FX clearing, derivatives**

Engines and bases are planned footprint, not established legal entities

20 · GLOBAL MAP

# Global Footprint Map

● Three strategic hubs ○ Expansion bases (planned)

Hubs and bases are planned footprint; the dot map is schematic and does not represent sovereign borders

21 · COMPLIANCE

# Compliance: Credentials First, Then Scale

CAICT · XINGHUO BIF · Obtained

### Digital asset issuer authorization

Cultural digital assets; issued Aug 2026, valid two years; BID identifier resolution, CAP trusted evidence and the DNA asset registry.

MACAU · REGISTRATION · Completed

### Macau commercial registration · No. 97762

Scope: brand rights trading, trademark and patent dealing, independent brand trading platform.

FINCEN · MSB · Documented

### US MSB money services registration

Foreign exchange, digital asset transfers and cross-border payments under AML / CFT standards.

DUBAI · VARA · In progress

### VARA compliance service provider onboarding

Middle East virtual asset brokerage, custody and advisory, connecting Gulf capital.

Credentials obtained or in progress within the ecosystem; holding entities and scope per written documents; Macau commercial registration is not an exchange license

22 · DOCUMENTS

# Credential Documents

证书编号：XHL-WHDA-IS6-2026-024
签发日期：2026 年 8 月 10 日

星火链网 CAICT 中国信通院

数字资产发行方授权证

珠海横琴融贯国际科技发展公司

统一社会信用代码：91440400MA54J2XE36

发行平台:隆兴澳　有效期：两年

兹证明：上述授权方作为星火链网合法节点运营商，依据《星火·链网数字原生资产（DNA）服务网络接入协议》及本节点运营管理办法，正式授权被授权方在授权范围内，以「星火链网文化数字资产发行方」身份开展以下业务：

- 基于星火链网主链及本节点子链，发行**文化类数字资产 / 数字藏品 / 文化数据凭证**（不含虚拟货币、不含证券化代币）；
- 调用本节点提供的 **BID 分布式标识解析、CAP 可信存证、DNA 资产注册与认证接口**，为发行目标获取链上唯一标识与存证哈希；
- 在自有平台或经备案渠道，进行文化数字资产的**展示、限量发行、持有凭证分发、按规则转赠**（不涉及集中竞价二级交易）；
- 对接星火链网文化数据方案，开展文博、非遗、文旅 IP、数字文创等场景的**授权运营与合规分发**。

**资产类别**：文化数字资产、数字文创、文博纪念凭证、IP 数字衍生品；

**禁止事项**：
- 不得宣称「代币」「币化资产」「投资回报」「二级市场保底溢价」；
- 不得开展虚拟货币兑换、ICO/IEO、资产拆分证券化；
- 不得冒用「中国信通院」「星火链网官方」名义对外担保；
- 发行内容须具备合法版权/授权链路，禁止侵权文博复刻与敏感内容。

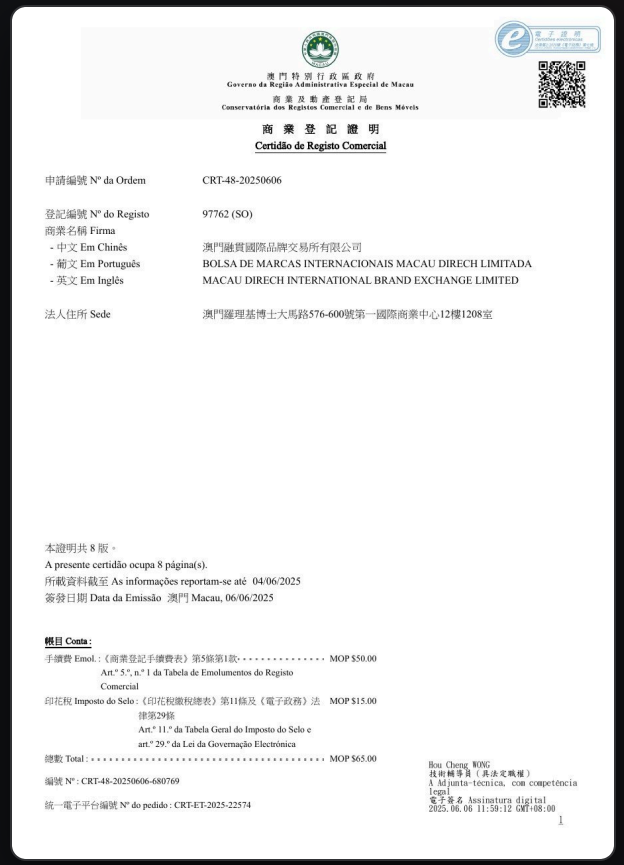

中国信息通讯研究院

CAICT · XINGHUO BIF

## Digital asset issuer authorization

Issued by a licensed Xinghuo BIF node operator for cultural digital asset issuance, covering BID identifier resolution, CAP trusted evidence and the DNA asset registry; issued Aug 2026, valid two years.

28 · ROADMAP

# Roadmap: Near to Mid Term

Near-term nodes are 2026 plans; the mid term has no fixed timeline; completed items per public records

29 · VISION 2030

# Roadmap: 2030+ Long-Term Vision

2030+
**AI-asset "on-chain Nasdaq"**
issuance and trading hub for AI-native assets (target)

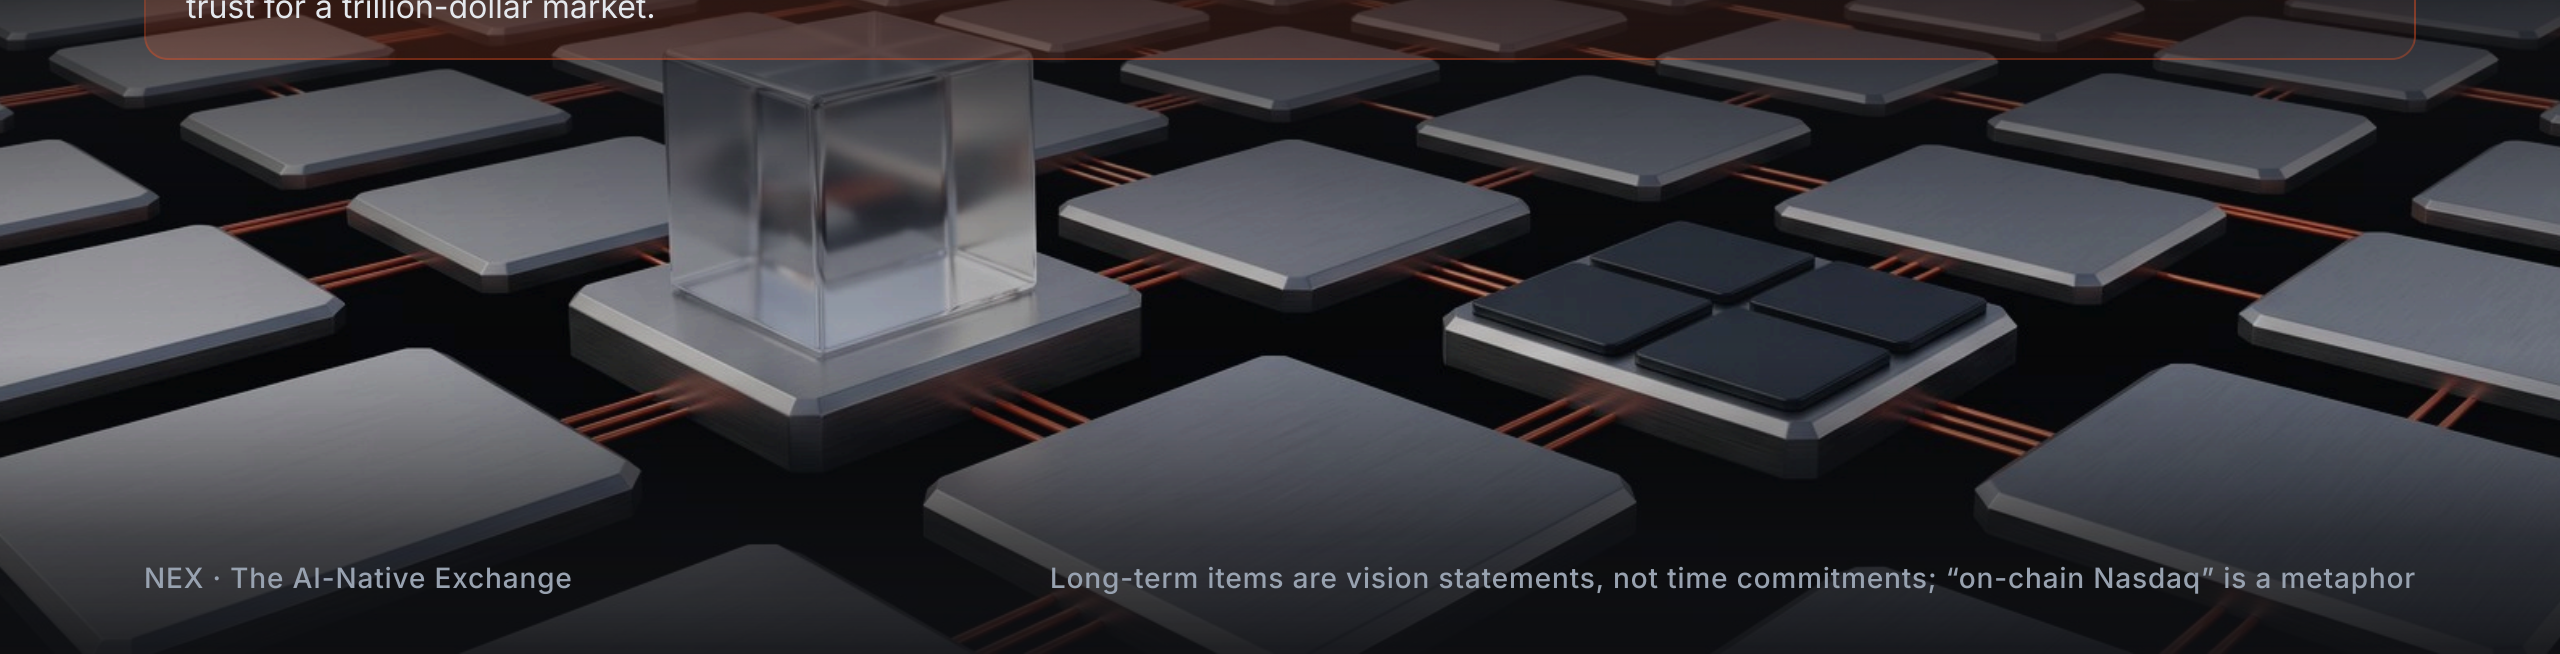

2030+
**Three tracks converge**
AI compute × sovereign digital currency × compliant RWA

2030+
**Global market footprint**
Asia, Middle East, Europe, North America

2030+
**Capital milestone**
toward an independent IPO (no timeline)

2030+
**Digital economy OS**
the operating system connecting everything

**2030+ Vision** The base infrastructure of the global digital economy: a value hub linking compute, assets and applications, and a foundation of trust for a trillion-dollar market.

Long-term items are vision statements, not time commitments; "on-chain Nasdaq" is a metaphor

# NEX Vision 2030
# Asia’s Next-Generation Digital Infrastructure

**NEX aims to be the core infrastructure of Asia’s next-generation digital economy**
